## Avada Software Announces Partnership with comForte to Distribute Infrared360(TM) Management Portal

Monday November 27, 2:09 pm ET

BOSTON--(BUSINESS WIRE)--Avada Software, an innovative provider of WebSphere® MQ (WMQ) Management solutions, today announced a global partnership with comForte to distribute its Infrared360(TM) Management Portal. The partnership enables comForte to deliver a secure WMQ, WBI, and JMS management solution to meet their expanding requirement to provide secure 'on demand' middleware management solutions to its traditional customer base and beyond.

ADVERTISEMENT "comForte is delighted to announce this business relationship with Avada Software," said comForte co-founder and CEO Dr. Michael Rossbach. "Driven by the WebSphere MQ implementations in several vertical markets we see an increased demand for manageable and secured solutions. This partnership will contribute to our business success in providing another outstanding product to our existing customers as well as in extending our customer base."

"We're extremely excited about this partnership," said Peter Ohrenberger, Vice President Sales and Business Development, Avada Software. "comForte has a world wide industry presence and superior reputation for providing leading encryption, middleware and access solutions for applications running on mission critical NonStop platforms. Infrared360(TM) Management Portal will enable comForte to provide a secured portal solution to its customers to manage the messaging infrastructure supporting these applications."

Infrared360(TM) Management Portal is J2EE compliant, agentless technology for the IBM WebSphere® MQ family of products and JMS based messaging infrastructures. Infrared360(TM) MP enables organizations to take control of management requirements within their messaging infrastructure without the need to deploy and update agent software on every managed platform. Infrared360(TM) MP allows users to provide remote administration, real time monitoring, infrastructure message testing, scheduling, auditing, and reporting.

### About comForte

comForte develops and markets high-performance Host connectivity software for users of HP NonStop systems. For more than 25 years it is comForte's mission to assist enterprises to deploy secure, manageable and cost-effective NonStop server access across the enterprise. Today, more than 600 enterprises world-wide rely on comForte solutions to manage access to mission-critical NonStop server applications and data.
